COMICCRAFT

Testing Results

Local Verification

The project documentation specifies Uvicorn local execution using `uvicorn app.main:app --reload` and browser access at `http://127.0.0.1:8000`.

API Verification

FastAPI interactive documentation is available at `http://127.0.0.1:8000/docs` for testing documented endpoints.

Note

Record your actual screenshots and observed pass/fail results in this phase after running the current project.
